ABOUT ME

As a **passionate enthusiast of cinema and comics** since my childhood, I have always wanted to be part of the extensive and intricate process that brings them to life. My fascination with both worlds led me to **Storyboarding**, seeing it as the most suitable and rewarding option to forge my path in these disciplines.

I am a friendly individual who highly **values maintaining a broad perspective on projects**. This disposition allows me to comprehend the complexities of other departments, facilitating the **adaptation of my work based on circumstances**.

I consider **teamwork essential**, whether in large or small environments, as well as the **ability to be practical and resourceful on an individual level**.

With a focus on **visual narrative** as my top priority, in the last **three years of experience**, I have perfected the skill of **effectively communicating** my ideas, both in Spanish and English.
